Safety Playbook for Individual Development and Engagement of Responsible Students

Spider Learning, Inc.

At Spider Learning, Inc., we firmly believe that we should be doing everything that we can to help educate students about how to safely seek help when feeling threatened and how to attain the skills needed to grow into confident young adults. Our comprehensive K-12 online program expands beyond the topics of assault and abuse and addresses the following eight themes throughout the program:

Identity

Emotional Health

Communication

Relationships

Responsible Citizenship

The Media

Safety and Prevention

Sexual Assault and Abuse

The lessons are designed to educate students about their feelings regarding self image, peer pressure, decision-making, and relationships, and to help parents and/or school districts provide students with an age-appropriate education in a caring and conscientious manner.

K - 5 Instructional Resource Kits

Each Elementary Resource Kit walks parents and/or teachers through the delivery of a specific lesson. Each lesson provides step-by-step instructions and a detailed, orderly method for introducing each topic. Each step includes easy-to-follow visuals, handouts, activities, links, and resources.

Middle and High School Content

Both the middle and high school level lessons are designed for students to work through independently or with the assistance of their parent and/or teacher. The package can serve as a standalone course or be integrated into an existing curriculum. Lessons include an objective, a hypothetical situation for the student to consider, a question posed to the student, content that answers the question, a summary of the content, and three assessment questions. Feedback is provided using distractor rationale and explanations of the correct answer.
